SUMMARY

Passionate Software Engineer and Full-Stack Developer with over 2 years of hands-on experience building scalable web applications and intuitive user interfaces. Skilled in transforming innovative ideas into well-designed, functional digital products that deliver great user experiences. Adept at bridging the gap between design and engineering — with a strong foundation in both front-end and back-end development as well as UI/UX design and creative media production.

SKILLS

Languages & Frameworks: JavaScript, TypeScript, React, Next.js, Node.js, Express
Databases: MongoDB, PostgreSQL, SQLite
Design & Tools: Figma, Docker, Git & GitHub, Adobe After Effects, Agile Methodologies
Other: Full-stack Web Development, UI/UX Design, Photography & Videography, Business Planning, Strategic Thinking

EXPERIENCE

Freelancer **March 2026 – Present**
Independent — Multiple Clients *Remote*

- Consult with clients to define project requirements and translate briefs into tailored digital solutions spanning web development, UI/UX design, and creative media production.
- Deliver end-to-end web applications from architecture and back-end logic to polished, responsive front-end interfaces ensuring quality and timely delivery.
- Manage multiple concurrent projects independently, maintaining clear client communication and adapting to evolving requirements throughout each engagement.
- Produce creative media assets including promotional graphics, motion content, and social media materials using Figma and Adobe After Effects.

Media Team Member (Photography & Videography) **June 2023 – August 2025**
Saint Johnmary Vianney Parish Catholic Church *Kubwa, FCT*

- Captured and edited professional photographs and videos for weekly services, conferences, and special church events, ensuring high-quality visual output.
- Assisted in live-stream productions, managing real-time video coverage for in-person and online audiences.
- Performed video editing and colour correction for event highlights and promotional content using Adobe After Effects.
- Collaborated with the communications team to create engaging content for social media platforms and digital outreach.
- Maintained and operated DSLR cameras, tripods, and audio equipment for indoor and outdoor events.

Student **September 2023 – June 2025**
NIIT Abuja *Abuja, FCT*

- Completed coursework in programming, web development, databases, networking, and software engineering; applied concepts through hands-on academic projects addressing real-world problems.
- Built and deployed web applications using the MERN stack and designed database systems with PostgreSQL, MongoDB, and SQLite; developed a chatbot prototype for a school library.

- Collaborated on team-based projects following Agile-inspired practices, contributing to planning, development, debugging, and testing cycles to improve software quality.
- Produced technical documentation and project reports detailing objectives, system design, and development processes to clearly communicate solutions.

EDUCATION AND TRAINING

Middlesex University Mauritius — **Expected July 2026**
BSc (Hons) Information Technology — *Mauritius*

National Institute of Information Technology (NIIT) — Nigeria — **June 2025**
Honors Diploma in Information Technology (Software Engineering) — *Abuja, FCT*
